

Topic Activities

Our Topic: The United Kingdom

This half term in year 2 we are learning about the United Kingdom. We will be learning about the 4 countries that make up the UK, their capital cities, popular foods from these countries, some of their landmarks and their features. We will also be learning about the seaside and coast line. We will look at seaside habitats, what kinds of plants and animals can be found there as well as different activities you can do at the seaside. We will learn about protecting our beaches by keeping them clean and do some field work comparing our local area to the seaside we visit on our trip.

Project 1: Countries in the UK: Due Friday 23rd June

Create a project to share your learning about one of the 4 countries that make up the UK. What have you learnt about that country's food, landmarks, features and other interesting facts?

Project 2: The Seaside: Due Friday 7th July

Create a project to share your learning about the seaside. What can be found in a sea habitat? What animals and plants might be there? What interesting facts have you learnt about seaside habitats? How can we help to protect them?

Think about how you want to present your learning. Will you choose to create a model, write a fact file, make a powerpoint presentation or maybe something else? How you choose to present your information is up to you!

We can't wait to see the amazing projects you create!
